

Finance and Contracts Manager

Location: New York, NY

Position Type: Full-time, beginning immediately

Organizational Overview

The extreme disparity in health outcomes and access to healthcare that exists today between the world's rich and the world's poor is unjust and unsustainable. To change this unacceptable status quo will require a new generation of leaders with diverse skills and backgrounds. Emerging leaders need opportunities to build their skillsets and build meaningful connections with other young leaders who share a vision for transformative change.

Global Health Corps is mobilizing a global community of emerging leaders to build the movement for health equity. We do this by providing yearlong paid fellowship opportunities to talented young leaders. During their fellowship years, GHC fellows serve in positions of impact within outstanding healthcare organizations in the US and sub-Saharan Africa. They also engage in intensive training, professional development opportunities, mentorship and thoughtful community-building.

Fellows work in teams of 2—one international fellow and one in-country fellow —on a wide range projects that improve healthcare access and health outcomes for the poor. Working at for-profit, non-profit, and governmental health organizations, fellows have built financial management systems for grassroots HIV organizations in Uganda, counseled homeless teenagers in New Jersey, supported district pharmacies in Rwanda in rolling out new supply chain management tools, and conducted policy research in Washington DC.
